

Client List

Colorado Department of Health and Environment (CDPHE)

PriZm helped redesign the statewide Environmental Leadership Program, making it more accessible to entities other than industry and crafting a new tier of the program focused on sustainability. Hillary also conducted two trainings: CDPHE employee sustainability 101 and examining the social aspects of sustainability for a gathering of business, government and non-profit employees.

City of Golden, Colorado

PriZm facilitated a town meeting to garner feedback and information about the newly released Golden Sustainability Initiative. Over 200 people were in attendance. PriZm also facilitated the first meeting of the Community Working Groups; over 60 citizens who volunteered their time to work on the Golden Sustainability Initiative. Hillary was pleased to volunteer her time as a member of an oversight group for the Community Working Groups.

Shelton Elementary

PriZm gave a 40 minute speech to children in an all-school assembly during the week of Earth Day. Hillary was asked to talk about environmental stewardship, and during her presentation engaged in a meaningful Q&A with the children.

Planet Bluegrass

PriZm advised on the layout and general content of the new sustainability page on Planet Bluegrass' website. Over the years, Hillary has had the pleasure of working with Planet Bluegrass to help them decrease the footprints of their festivals and their ranch.

Focusing the lens of sustainability

Boulder Community Hospital

PriZm worked with ConservED to guide and support the Boulder Community Hospital's Climate Action Team. This group of high level employees are tasked with creating new policies, procedures and direction for the hospital as it lessens its environmental impact.

DOMANI Sustainability Consultants

PriZm facilitated an employee retreat for this sustainability consulting firm. Using techniques from Appreciative Inquiry that are both creative and motivating, Hillary helped this team of consultants answer key questions for their business.

MARS USA

PriZm worked with MARS USA to provide sustainability research, advice, ideas, and support, and acts as a filter for MARS USA clients.

Corporate Express

PriZm Sustainability provided consulting services as part of a prize package in the Corporate Express Ecooffice Makeover Contest. Hillary appeared on the 9News Greenline to answer questions about sustainability, and then consulted with the contest winner in April of 2008, along with A Creative Environment, about a sustainability management system.

Institute for International Education

PriZm co-presented with Jill Cooper an interactive morning session aimed at discussing and defining the word "sustainability," and facilitated a two hour conclusionary discussion on the last day of their week-long stay. The audience was a 15 person group of Humphrey Fellow students from around the world, holding positions in government, NGO and business in their respective countries.

Focusing the lens of sustainability

City of Loveland Glass Grant

PriZm Sustainability was part of the LBA Associates team that won a research grant proposed by the City of Loveland, Colorado, to examine glass recycling in the state of Colorado and propose Best Management Practices for the City of Loveland's glass recycling program. Hillary lead the section of the grant focused on potential new markets for recycled/ repurposed glass.

ReadyTalk

Prizm is working with a pre-established internal team to develop a sustainability management system. Hillary will also be a part of a ReadyTalk webinar series dedicated to "going green" and discussing the process ReadyTalk has gone through.

GolinHarris

PriZm works with GolinHarris to provide sustainability research, advice, ideas, and support, and acts as a filter for GolinHarris clients.
