

## Client List

### *Colorado Department of Health and Environment (CDPHE), 2006*

PriZm helped redesign the statewide Environmental Leadership Program, making it more accessible to entities other than industry and crafting a new tier of the program focused on sustainability. Hillary also conducted two trainings: CDPHE employee sustainability 101 and examining the social aspects of sustainability for a gathering of business, government and non-profit employees.

### *City of Golden, Colorado, 2006-2007*

PriZm facilitated a town meeting to garner feedback and information about the newly released Golden Sustainability Initiative. Over 200 people were in attendance. PriZm also facilitated the first meeting of the Community Working Groups; over 60 citizens who volunteered their time to work on the Golden Sustainability Initiative. Hillary was pleased to volunteer her time as a member of an oversight group for the Community Working Groups.

### *Shelton Elementary, 2006*

PriZm gave a 40 minute speech to children in an all-school assembly during the week of Earth Day. Hillary was asked to talk about environmental stewardship, and during her presentation engaged in a meaningful Q&A with the children.

### *Planet Bluegrass, 2006 to present*

Over the years, PriZm has had the pleasure of working with Planet Bluegrass to help them decrease the footprints of their festivals and their ranch, a relationship that continued after first established while Hillary was at New Belgium Brewery. This includes sustainability management system creation, website content, research, and more.

### *Boulder Community Hospital, 2007*

In a partnership with ConservED, PriZm gave guidance and support to the Boulder Community Hospital's Climate Action Team. This group of high level employees are tasked with creating new policies, procedures and direction for the hospital as it lessens its environmental impact.

### *DOMANI Sustainability Consultants, 2007*

PriZm facilitated an employee retreat for this sustainability consulting firm. Using techniques from Appreciative Inquiry that are both creative and motivating, Hillary helped this team of consultants answer key questions for their business.

### *MARS USA ,2007-2008*

PriZm worked with MARS USA to provide sustainability research, advice, ideas, and support, and acts as a filter for MARS USA clients, such as Sam's Club.

### *Corporate Express, 2008*

As part of a prize package in the Corporate Express Ecooffice Makeover Contest, PriZm partnered with A Creative Environment (ACE) to supply consulting and insight the the Mental Health Center of Denver (MHCD). Hillary appeared on the 9News Greenline to answer questions about sustainability, toured the MHCD facility, and co-presented a plan for sustainable action to upper management with ACE.

### *Institute for International Education, 2008*

Partnering with Jill Cooper (then of Faegre and Benson), PriZm gave an interactive morning session aimed at discussing and defining the word "sustainability," and facilitated a two hour conclusionary discussion on the last day of their week-long stay. The audience was a 15 person group of Humphrey Fellow students from around the world, holding positions in government, NGO and business in their respective countries.

### *City of Loveland Glass Grant, 2008*

A member of the LBA Associates team that won a research grant proposed by the City of Loveland, Colorado, to examine glass recycling in the state of Colorado and propose Best Management Practices for the City of Loveland's glass recycling program. Hillary lead the section of the grant focused on potential new markets for recycled/repurposed glass.

### *ReadyTalk, 2009*

Originally contacted to review a carbon footprint reduction plan, PriZm worked with a pre-established internal team of employees to set-up foundational systems for a future sustainability management system.

### *GolinHarris, 2009*

PriZm is available as a resource to provide sustainability research, advice, ideas, and support, and to act as a filter for GolinHarris clients.

### *William Sarni, Author, 2010 to present*

PriZm Sustainability's Hillary Mizia contributed both written word and lead research support for the 2011 title *Corporate Water Strategies* and an upcoming work on building watertech businesses.

### *Golden Field School, 2010*

Volunteering PriZm's time, Hillary facilitated a World Cafe with 30 members from the Golden community to determine direction and ideas for an innovative new school. The meeting was 3 hours and left attendees feeling inspired, while giving the Golden Field School Steering Committee direction.

### *Food Distribution Entrepreneurs, 2010*

Approached to help two entrepreneurs create a business plan, PriZm highlighted the sustainable aspects of their potential new business, conducted research, and networked the Colorado food scene. Over the course of a few months, Hillary filled in the business plan and positioned this team for sustainable business criteria.

### *University of Denver, 2011*

Asked to speak in a keynote capacity at the annual Rocky Mountain Sustainability Summit, Hillary encouraged 200 students and faculty alike to reconsider sustainability on university campuses as a way to make deep, effective, local connections.

### *Plain Green Conference, 2011*

PriZm lead a two hour workshop at this South Dakota conference on creating an organizational culture of sustainability called Sustainability Infused. This hands-on workshop utilized tools from Appreciative Inquiry to engage, motivate and help the 25 attendees create a plan of action.

### *City of Arvada, 2011*

The Arvada Sustainability Advisory Committee utilized the facilitation and city sustainability experience of PriZm by hiring Hillary to guide discussion during a 4 hour meeting aimed at determining sustainability projects. The ASAC also had Hillary lead a discussion on defining "sustainability."
